Zeno Kitchen

Quick start

Start in five steps

Zeno Kitchen is for one cook, two people sharing a kitchen, or a full house. It is open on the web today, and coming to Google Play first, then the App Store.

1. **Sign in.** Tap "Continue with Google" or "Continue with Apple", or type your address under "Zeno Kitchen account email" and tap "Send email link". One Zeno account works for Zeno Kitchen and Zeno Home.
2. **Set up your kitchen.** Type a name under "Kitchen name" and tap "Next". Tap the stores you use and tap "Next". Tap the things you always buy and tap "Next". On the last step tap "Just me for now".
3. **Add your first items.** Open Lists. In "Adding to", pick a store, or "To sort" if you do not know the store yet. Type the item and tap "Add". Tap a chip under "Add again" for things you buy most weeks.
4. **Plan tonight.** Open Tonight. Tap "Plan tonight" and plan a dinner, or tap a row under "Quick picks". Open Meals to plan other days.
5. **Invite people.** Open Settings, then "People & devices", then tap "Copy invite link". Send the link to each person. They sign in to their own Zeno account.

Every household gets Plus free for 30 days, with no card. After that it moves to Free unless you subscribe, and nothing is deleted.

At the store

1. Open Lists. Tap the large button at the bottom. It reads "Shop" and a store with a count, or "Shop all lists" with a count.
2. Tap the box beside each item when it is in your cart. A bar shows "In your cart".
3. If the store does not have an item, tap its name and tap "Not found". It stays on your list.
4. Tap "Finish shopping". Items you checked leave the list. Items you did not check stay.
5. To send the list to someone, tap "Share list" at the bottom of Lists before you go, or "Copy list" during the trip.

An item you have bought at a store before goes to that store's list the next time you add it. To move an item, tap its name, open "Move to store", and tap "Save".
